ACADEMIC INTERESTS

- Gender dimensions of food insecurity and malnutrition
- Environmental determinants of community health
- Sustainable agriculture and climate-food-health nexus
- Policy advocacy for equitable food systems
- Women's roles in smallholder farming and food sovereignty

CO-CURRICULAR & VOLUNTEER ACTIVITIES

- Participated in university seminars and workshops on gender equality, health rights, and environment.
- Contributed to community awareness campaigns on women's health and nutrition.
- Active member of university student society — organised events and panel discussions.
- Engaged in environmental clean-up drives and sustainability awareness programmes.

STATEMENT OF PURPOSE

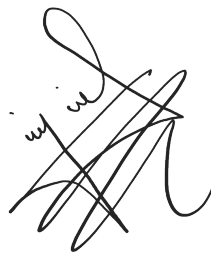

I am applying to the MSc programme in Food, Health and Environment at Università del Piemonte Orientale to deepen my academic understanding of how food systems impact human health and the environment through a gender-sensitive and socially inclusive framework. My background in Gender Studies has equipped me with a unique analytical toolkit to examine the structural inequalities embedded in food production and health access. I am committed to contributing meaningfully to research, academic discourse, and future policy development in this field.
